The renters of the privileges are meeting with commendation from all sides. We have heard many say that the hotel people are serving the best meals they ever secured on the grounds before. The stable man is denominated as the most obliging of them all. Then our confectioners are not slow. They feed us on such delectables as peach for the good hard cash. May their shadows never grow less, and may they prosper amazingly.

The grounds are beautiful; one of nature's choicest spots. For rest, recreation and spiritual enjoyment this is a most ideal place to come. One could hardly imagine that there could be so great a difference in temperature as well and the start of the start

DRINK PURE WATER

ENJOY GOOD HEALTH

The long-continued drouth throughout the county has made the question of stock water a serious problem. Many farmers are compelled to had water for miles, and some of those in the interior who are not fortunate enough to possess good springs or wells come all the way to the Ohio to get enough to possess good springs or wells come all the way to the Ohio to get enough to the precious fluid to keep their stock alive. What must be the condition of the wells and cisterns in a section where there has practically been no rain all summer? Can what water remains be pure, untainted or fit for household purposes? These are questions that require no answers.

DRINK PURE WATER AND ENJOY GOOD HEALTH.

AND ENJOY GOOD HEALTH.

To have pure water equip your well or cistern with a Bucket Pump and Water Purifier. We sell them. It is the best Pump on earth for wells or cisterns. It has no superior for durability or price for wells up to sixty feet. A ten-year-old boy can draw water with ease from a sixty foot well. It will not freeze, as the cups discharge themselves, having stood the test of 38 degrees below zero. It saves its cost in doctor's bills alone in six months.

AND ENJOY GOOD HEALTH.

For every gallon of water drawn, a gallon of air is circulated through the water, thus ventilating, vitalizing and purifying the water, destroying all germs of disease and removing all impurities from the foulest well or cistern in a few days ordinary use. We also offer and recommend the I. X. L. Patent Galvanized Steel Chain Pump Curb and Galvanized Steel Tubing.

Judge Advocate General Lemley Will Now Proceed With the Preparation of His Case.

The Court Will Probably Sit For Several Months, More Than Likely Until Congress Con-venes in December.

Washington, Jalv 27.—The precept to the Schley court of inquiry, which the navy department has been preparing for several days, was given to the public. It is a document addressed to Adm. Dewey, as president of the court instructing him concerning the matters to be investigated. While it Adm. Schley's conduct during the operations in the West Indian waters shall be investigated, making use of the very words employed by Adm. Schley in his, letter to Secretary Long. It also selects certain distinctive acts of the rear admiral concerning the facts and propriety of which it calls for particular investigation. These points cover briefly Adm. Schley's alleged delay with the flying squadron at Clerchingos, the abovaness of his pro-

No Move Made by Property Owners in the First Ward.

Mr. C. A. Walther, Chairman of a Committee of Council, made a tour of the First Ward this week to see how the work of laying pavements in accordance with the recently published odd mance was progressing.

He expressed surprise that so little ttention had been paid to the matter by the property owners so far, and calls at-tention to the fact that the thirty days

tention to the fact that the thirty days limit is almost up.

If the work is not done promptly Council will go ahead and carry out the provisions of the law, and that means considerable additional cost to those who are tardy.

It would be better for all concerne if they were saved any further trouble and a reminder just now may accom-plish this end.

THE "ECKFORDS" WIN!

Result of the Baseball Game at the Lumber Yard Yesterday.

The game yesterday afternoon between the Y. M. C. A. and Eckfords drew a pretty fair crowd to the Baseball Lumber Yard, and it was a very enjoyable event.

Lumber Yard, and it was a very enjoyable event.

The state of the state of the famous old Eckfords of twenty-five years ago taught the youngsters a few things—not the least of which was that the weight of years nor family cares nor even the responsibilities of statesmanship had diminished their ardor for baseball; but if you meet a fellow on the atreet today who is hobbling like a spring-halled mule,—that's an "Eckford", and they kept the Y. M. C. A. boys well in the rear all through the fill through—notwithstanding the handicap they had when Colonel Billy Lynch was chasing the bill through the fields and picking it out of the 'cow-silps and daisies.' Senator Cox and John Roper made some capital good plays on the part of the Eckfords, while Billy Yarnali was a Major Weiss of the Y. M. & A. As made

The Investment Company has taken its place as a permanent institu-tion, and the prejudices that obstructed its early growth are disappearing in the light of experience in its workings. For many months the people of Ma-son county have been sending over \$1,000 a month to be invested in com-panies at Lexington and other places. Now that we have a Company at home whose plan is the latest and most approved and whose Managers are person-ally known to you as men of standing and integrity, why not put your invest-ment with them? Patronize your home institution, and your city and county will develop.

ment with them? Patronize your home institution, and your city and county will develop.

There is still a lingering prejudice in the minds of many people against the investment business. This arises largely from lack of inform lack of informs at the real principles upon which the business is founded.

Our older citizens remember when the first Building Association was started in Maysville. There was a great deal of opposition to it, but it lived down the prejudice and was the forerunner of the three prosperous institutions of that kind in Maysville. The Building Association depends for its success entirely upon co-operation.

Life insurance was a rarity in Maysville in the preceding generation, but now it is difficult to find a man entirely uninsured, who is healthy enough to stand a medical examination.

Life insurance is murance is unique to the sick and feeble, to whom life insurance is barred, as well as to the healthy and strong.
